

Prism VoIP Exchange with IVR

PSI introduces the 3CX VOIP Digital PBX, the world's first Windows based digital PBX, which provides a feature laden, high performance IP based digital switching platform complete with IVR remote system management.

Easily configured for remote off-premise extensions and wireless VOIP service you can link phones from anywhere completely bypassing the telephone network. Using the Prism SIP Converter with auto-fallback to the PSTN your systems can be resilient and stay in service when most others have failed.

The Prism 3CX Phone System for Windows is a software-based IP PBX that replaces traditional proprietary hardware PBX / PABX. 3CX's IP PBX has been developed specifically for Microsoft Windows and is based on the SIP standard – making it easier to manage and allowing you to use any SIP phone (software or hardware). A software-based IP PBX / PABX offers numerous benefits:

- A software-based IP PBX is far less expensive than a hardware-based PBX / PABX
- Employees can move offices without requiring any changes in the wiring or IP PBX configuration
- Choose from the many SIP based hardware phones instead of getting locked in with one vendor
- Receive & Make calls via the standard PSTN using VOIP Gateways
- Discover the advantages of 3CX software VoIP IP PBX

3CX Phone System for Windows is an award-winning software-based IP PBX that replaces traditional proprietary hardware PBX. It is based on the SIP standard and supports most popular SIP phones, VoIP Gateways, VoIP service providers and PSTN phone lines. It is easy to manage by system administrators as it integrates well with Windows Network infrastructure.

Benefits:

- Easier to install and manage via its web-based management console
- Far less expensive than a hardware-based PBX
- Utilize any SIP phone instead of being locked into one vendor
- Receive and make calls via existing phone lines using VoIP Gateways

Key Features:

- Auto-attendant
- Digital receptionist
- Phone provisioning
- Paging and intercom
- Call forwarding
- Call queuing
- Call recording
- Call conferencing
- Call parking

Key Features:

- 3CX VoIP Client – simplifies usage and boosts mobility
- Web-based management console for easier administration
- Unlimited extensions
- Windows 2008 server integration – run a PBX virtualized
- 3CX Bridges – connect branch offices seamlessly
- 3CX Tunnel – for easy remote connections
- Fax server
